Not Quite Down and Out.
Many a man feels that he is down and out when as a matter of fact he still has in him many years of good service that can be brought out by proper treatment. Stomach trouble often makes one despondent. It hits him where he lives, saps his strength and energy and makes him feel like a dying man. Give him a few doses of Chamberlain's Tablets to improve his digestion and invigorate his liver and bowels, and in most cases recovery is prompt and effective. (Adv.)

OPPONENTS HAVE THEIR INNING
Anti-Suffragists Given Floor in House Committee Hearing on Amendment.

Washington, Jan. 4.—Opponents of woman suffrage were given the floor today when the house committee resumed hearings on the proposed suffrage amendment to the Constitution to be voted on by the house next Thursday.
Arrangements to hear the anti-suffragists, including officers of the National Association Opposed to Woman Suffrage, were made by the committee after the first session yesterday was devoted to arguments in behalf of the amendment presented by the members of the National American Woman Suffrage association.

MUNITION PLANT ON RUSSIAN FRONT BLOWN UP

Stockholm, Jan. 4.—A Haparanda dispatch to the Tidningen says that the munitions depot on the Russian southwestern front was blown up recently and that all buildings within a radius of two kilometers were destroyed. Two trains loaded with Cosackes on the way to the Don district were wrecked, causing the death of 2,000 men.

NEWS OF WORLD MARKETS
STOCKS

New York, Jan. 4.—The usual sprinkling of gains and losses was shown at the opening of today's stock market, but former tendencies ruled before the end of the first half-hour. Reading and Union Pacific led the rails at advances of 1 to 2 points. Bethlehem, Midvale and Crucible Steels registered similar gains, and copper, shipbuilding, motors and oils made appreciable improvement with active equipments and specialties. Liberty bonds were steady.
Although the president's message to congress was in keeping with forecasts, rails made sharp declines of 1 to 3 points, industrialists reacting to a like extent. Rallies soon made up much of this loss in rails, the balance of the list also improving.
Further selling of steel and other industrial issues in the final hour. The closing was irregular. Liberty bonds at 95.90 and the 3 1/2% at 95.80 to 95.70.

RADIO TELEGRAPHY AT TENNESSEE UNIVERSITY

(Special to The News.)
Knoxville, Tenn., Jan. 4.—A school in radio telegraphy will be added to the curriculum of the University of Tennessee within a week, according to announcement of President Brock Ayres has returned from Washington where a conference of representatives of fifty colleges and universities was held to discuss plans for the inauguration of the course in their respective schools.
Only juniors and seniors of electrical engineering departments are eligible to be appointed in the course. The course will combine training for radio telegraphic signal work in the army and navy.
At the conference in Washington, Dr. Ayres stated that the advisability of calling men from the army who have enlisted or been drafted and who are known to be especially adapted and equipped for the course, was discussed. The meeting accepted this proposition as practical and it met with the approval of the army officials who participated in the conference.
"This makes it probable that men will be released from the army for training in this work which will make them more capable to serve the country in this emergency than they are now," says Dr. Ayres.
The question of "migration" of students was also discussed at the conference. This means, Dr. Ayres explained, that any student of any school not selected for the course, provided he has shown by his record that he would make the government a valuable man, may enter the course in the school where it is being taught and the government will be glad to enroll him.
Other southern institutions selected by the government are: Alabama Polytechnic school, Auburn; Georgia School of Technology, Atlanta; North Carolina State college, Raleigh; State College of Kentucky, Lexington; University of North Carolina, Chapel Hill; Virginia Military Institute, Lexington; Va.; University of Virginia, Charlottesville; and Virginia Polytechnic school, Blacksburg.

"FATHER AND SON" WEEK PLANNED BY Y. M. C. A.

Plans are now being mapped out by the local Y. M. C. A. for the observance of "national father and son week," from Feb. 11 to Feb. 17. The week will be given over to the movement of bringing fathers and sons closer together in their sports, in their social and church life. The week will be opened with a banquet, at which time the young men of the city will be invited to attend with their fathers. There will be special speakers for the occasion and a free and easy good time will be enjoyed by the boys. The boys' secretary of the Y. M. C. A., R. W. Johnson, will have the campaign in charge. He will make arrangements with all of the churches in town to have special father-and-son services, at which time the father will be expected to attend with his son.
Such fathers as have boys at the front will be encouraged during this week to send letters to the boys "somewhere in France," and in this way the son will hear from his dad "somewhere in the United States."
The Y. M. C. A. workers have been devoting a great deal of their time to war work and have not been doing anything in the way of local work except the usual line of meetings and classes. However, they will endeavor to make this special week a very important one, and will start to work on the program at once.

THE COTTON MARKET IN FAIR SHOWING

Chicago, Jan. 4.—Scarcity of receipts tended today to make corn prices harder. Opening quotations, which varied from unchanged to 1/2¢ off, were followed by a moderate upturn all around.
Oats, like corn, developed firmness owing to the fact that arrivals from the country were meager.
Higher prices in the hog market gave strength to provisions. Sellers were scarce.
The close was firm, 1/4¢ net higher at \$1.27 1/2 for January and \$1.25 1/2 for May.
